

The Need for Change

Can we change this generation?

Can we do all that is required of us before the Master returns

If we don't change the town and cities we live in who will?

God has invested in us His Glory and the Presence of the Holy goes with us each day.

Based on his promise we are given a Great Commission that we can't run away from;

We need God to show us how to use His Power.

There is a cry in the world today that can't be healed or quieted by a great Olympics.

There is a need for clarity that only God can bring by His Spirit

As you look around what can you change?

If we can see what we are able to change then one by one we will change a generation.

I went into London this week to a Youth Centre in Silvertown and saw how the heart of 2 teenagers imparted a community so that years later they are still changing lives. It was a privilege to contribute into that

This is just the shadow of the reality of God. God changes lives on a daily basis and we have a chance to partner with the Great I Am that changes hearts.

So, Yes we can change this generation one person at a time and a whole nation will change.

Can this Nation be saved? I say Yes it can and it will.
