

Come on Church

The Body of Christ worldwide is the church of God!

God desires that the church that His Son Jesus died for be a church that sees the big picture. A church that is always looking to have global impact. A church willing to engage the communities around it and the communities far from it; being effective locally and impacting internationally.

God desires that His church be His voice in the earth, His eyes in the world and His hands in every hamlet, village, town, city and nation. God has invested His life in the church and now the church has to arise and face the challenge that God has handed it. Knowing fully well that God has given us His Spirit to enable us to be effective at the purpose and destiny set before us.
